SUBJECT : Cable Secretariat

1. Attached for your information is a compilation of data concerning cable processing by the Cable Secretariat. 2. Since certain of the information - particularly the collection of DDP symbols, can be considered quite sensitive, I would ask that no copy of any items be made or retained. The text of all messages was deleted since the purpose was to show the forms and types of message processed, not to illustrate dissemination based on requirements. This material is not being given to any other office at this time. I may later route this copy to [REDACTED] in DDP.
